*Our Hospice receives some government funding to cover costs of our medical care team. In order to operate our Hospice and pay for things such as food, electricity, and other things that make our Hospice like a home, we have to raise \$850,000 of the annual budget through special events, donations and sponsorships to ensure our programs remain available for those who need them.*

## Hospice Moments

Hospice care is an essential part of the health care system that not only offers individuals the opportunity to make choices for their end-of-life journey, but also supports family members as they transition to a new life after they have lost a loved one.
